1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the present drawings are clearly informal due to some of the lines and numerals being hand drawn. Additionally, in Figs. 6A to 6C the arrows showing fluid flow in inlet 61 must be shown extending in the opposite direction. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

2. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious a device of the type claimed having a first tubular member helically wound upon a core pipe and at least one additional tubular member being helically wound upon a previously applied helically wound tubular member wherein all windings are equally spaced along the pipe and are applied at approximately equal 45 degree angles to the longitudinal axis and the ratio of the diameter of the core pipe to the diameters of the tubular members being substantially whole numbers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following references show heat transfer devices using helically wound tubes: Deckebach, Dalin, Huet, Winship, Aranyi, Whittel, Gorham, Zundel, and Hassanein et al.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Teresa J. Walberg whose telephone number is 571-272-4790. The examiner can normally be reached on M-F 9:00 - 5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robin Evans can be reached on 571-272-4777. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
